Brilliant crocodile look: the ballpoint pen e-motion in hibiscus red

Both glamorous and luxurious, the elegant e-motion is characterised by its curvaceous silhouette. The range of writing instruments is now complemented by a true eye-catcher: The e-motion ballpoint pen is presented in a warm hibiscus red with an elegantly laser-finished crocodile pattern on the barrel made of resin. The polished chrome-plated metal parts provide a striking contrast. A highlight on the desk with a colourful touch, it inspires to put thoughts and notes on paper immediately.
